PROFESSIONAL SUMMARY

Senior project and delivery leader delivering complex, multi-workstream programmes across IT, digital, and operational environments in both public and private sectors. Experienced across Agile, Scrum, Change management, and innovation approaches, with a focus on measurable outcomes while building strong stakeholder relationships and high-performing teams. Recognised for navigating organisational challenges, solving problems pragmatically, and maintaining delivery momentum.

EXPERIENCE

Project Coordinator & Resourcing Business Manager - Department for Science, Innovation and Technology (DSIT), HM Government

01/2025 – 03/2026 | via MIGSO-PCUBED (consultancy)

Supported delivery of a cross-government ERP programme within the Government Major Projects Portfolio (GMPP), serving 9 departments (~48k users).

- Owned programme resourcing operations, coordinating staffing across multiple delivery workstreams during rapid scale-up and staff turnover, enabling uninterrupted delivery.
- Managed a small support team, delegating tasks and maintaining operational continuity.
- Led improvements in governance assurance, overhauling programme documentation and audit trails to strengthen traceability and readiness for both internal and external assurance reviews.
- Designed and implemented automation and process enhancements that simplified reporting, aligned workstreams, and accelerated milestone progression across programme teams.
- Provided continuity in critical phases, stepping into senior support responsibilities at short notice to ensure resourcing and governance processes continued seamlessly.

Delivery Manager & Scrum Master – Apax (Private Equity)

09/2024 – 12/2024 | via MIGSO-PCUBED

- Directed the refactoring and upgrade of a core operations system while managing BAU IT initiatives.
- Streamlined team structure and Jira metrics, reducing sprint drift from 25 to 2 tickets and improving transparency on delivery performance.
- Created multi-layered roadmaps to visualise competing priorities and empower decision-making.
- Facilitated Scrum delivery, workshops, and demos, embedding repeatable processes and boosting team and user confidence.

Senior Project Manager – Input Output Global (Blockchain), user ecosystem establishment

06/2024 – 07/2024 | via MIGSO-PCUBED

- Managed launch of a community-based Cardano management system, tracking tasks, risks, and team dependencies across organisational tribes.
- Facilitated Programme Increment planning, improved task distribution through RASCI artifacts, and optimised team capacity allocation.

Senior Project Manager – Mondelēz

05/2024 – 06/2024 | via MIGSO-PCUBED

- Directed the technical migration of legacy systems to Salesforce Consumer Goods Cloud across 4 regions, preventing operational disruptions during critical seasonal planning.

- Coordinated cross-functional teams and stakeholders to deliver the migration on schedule with zero business interruptions.

Senior Project Manager & Product Owner – Major Government Sector

08/2022 – 04/2024 | via MIGSO-PCUBED

- Delivered a Salesforce CRM replacement for complex sales and recycling processes from ideation to launch within 9 months, including hyper care and benefit realisation.
- Acted as both Project Manager and Product Owner, navigating complex approvals to reduce time delays, saving £80k+ in resources.
- Supported business growth initiatives internally: coaching new joiners, creating training materials, running community Kanban, and contributing to new business bids.

PMO & Implementation Manager – Pick Up, Drop Off (PUDO) rollout, Post Office Ltd

01/2021 – 07/2022

- Managed national rollout of a new parcel collection service in partnership with Amazon and DPD, prioritising 11,500 locations based on strategic requirements.
- Created training materials and enabled rapid adoption by Postmasters and Area Managers, saving £20k in project costs.
- Coordinated cross-functional teams and suppliers, ensuring smooth delivery and operational readiness.

PMO Manager – Branch Hub, Post Office Ltd

08/2019 – 12/2020

- Delivered ServiceNow CRM platform to support business continuity during COVID-19 across 12,000 UK post offices.
- Onboarded suppliers, managed purchase orders, and ensured reliable delivery of tech and financial support.

PMO Manager – Agile Transformation & Change Management, Post Office Ltd

04/2019 – 08/2019

- Led business-wide Agile transformation from Waterfall and ad hoc projects, implementing true Agile rituals, performance tracking, and risk/issue management.
- Embedded Agile methodology across teams, driving consistent delivery and measurable progress.

Project Manager – Site Redesign, Post Office Ltd

01/2019 – 04/2019

- Managed multi-store redesign programme, coordinating internal teams, suppliers, and budgets to refurbish 10 stores.
- Collected and analysed customer feedback post-launch, delivering high satisfaction outcomes.

PMO Manager – Network Strategy, Post Office Ltd

08/2018 – 01/2019

- Developed programme and workstream plans, risk/issue logs, and stakeholder management strategies for a nationwide Network Strategy initiative.
- Supported securing £1m+ in funding through staged business cases and delivered programme to time and ~10% under budget.
